Copy Patents Bd

MEMORANDUM FOR: MR. HUGH D. FARLEY
ASSISTANT EXECUTIVE SECRETARY
NATIONAL SECURITY COUNCIL

SUBJECT: Government Patents Board

1. This will confirm our recent telephone conversation regarding my liaison duties with the Government Patents Board for the National Security Council.

2. Enclosed is a copy of the CIA Notice implementing Executive Order No. 10096. While it seems most unlikely that any member of the National Security Council will make any invention requiring action, there will be certain channels established to determine the Government's interest, and I shall be pleased to take the necessary steps if you will notify me whenever invention occurs.

3. For your information, the code number assigned to the National Security Council for use when reporting inventions is "28."

4. If you have any questions in regard to the Government Patents Board or its functions, please give me a ring.
